

Our Communities

Wednesday, 23 April 2008

Star-Lite Construction Ltd. currently has subdivision developments - Star-Lite Village and Eaglewood Village - which are growing together to provide residents with an unmatched quality lifestyle not found anywhere in Eastern Canada. Close to Nature, but only moments away from Shopping, Schools, Entertainment, and with plenty of Recreation facilities nearby.

Star-Lite Village was started in 1974, now with over 200 families enjoying our quiet, treed community. There are still a few lots available in this Star-Lite Village. Eaglewood Village (connected at the back of Star-Lite Village) opened lots in 1997 and has several great lots still available. Great place to raise a family on spacious 1 acre plus treed lots. For your children, both communities feature safe playgrounds. Quiet and relaxing 'country' living while only minutes from the city.

Residents can enjoy Lake Herkert, (a private man-made lake for residents only) year round. Swimming in the summer and skating in the winter are a couple of sports enjoyed at the lake. Non-motorized boats such as paddle boats, kayaks and canoes are also permitted on the lake.

Quick access to provincial snowmobile trails and cross-country skiing areas.
